RAJARSHI CHAKRABORTY

Cybersecurity Analyst | Penetration Testing | Digital Forensics | Threat Intelligence
Phone: +91 94339 39953 | Email: rajarshi7474@gmail.com | GitHub: github.com/X5464 | LinkedIn: linkedin.com/in/rajarshi-cybersecurity
TryHackMe: tryhackme.com/p/OmegaR | Portfolio: persona-portfolio-website.vercel.app

PROFESSIONAL SUMMARY

Cybersecurity Analyst and B.C.A. (Cybersecurity) student at Jain (Deemed-to-be) University with hands-on experience in penetration testing, digital forensics, network log analysis, OSINT, and threat intelligence. Currently performing live digital forensics on active cybercrime cases with the Uttar Pradesh Police (APCSIP 2026). Builds security tooling in Python, including CTI dashboards integrated with VirusTotal and AbuseIPDB, hash-cracking utilities, and a Tor-routed OSINT suite. 1st place Research Horizons 2025 and 60-hour international CTF finisher.

TECHNICAL SKILLS

Security Domains: Penetration Testing, Digital Forensics, Network Log Analysis, Threat Intelligence, OSINT, Vulnerability Assessment, Network Security Auditing, CVE Triage, Phishing Simulation, Chain-of-Custody Logging
Offensive Tools: Nmap, Metasploit, Burp Suite, Kali Linux, Custom TCP Port Scanner, Subdomain Enumeration, Hash Cracking (MD5, SHA-1, SHA-256)
Forensics and Monitoring: Wireshark, Network Log Analysis, SIEM Concepts, CTI Dashboards, VirusTotal, AbuseIPDB, IP Reputation Scoring
Programming and Cloud: Python, C, REST APIs, Git, AWS, IoT (Sarvam API)
Frameworks and Platforms: OWASP Top 10, IAM, Linux, Kali Linux, Zero-Day Response

PROFESSIONAL EXPERIENCE

Cyber Security Police Intern | Amroha District Police, Government of Uttar Pradesh | 06/2026 - 07/2026
- Selected from 10,000+ national applicants for the state-sponsored APCSIP 2026 cybersecurity program.
- Performed live digital forensics and network log analysis on active cybercrime cases alongside law enforcement officers.

Penetration Testing Intern (Offensive Security) | InLighnX Global Pvt. Ltd. | 05/2025 - 12/2025
- Engineered a unified 6-tool offensive security platform, including a TCP port scanner, subdomain enumerator, and hash and PDF password crackers.
- Exposed cryptographic weaknesses by building MD5, SHA-1, and SHA-256 hash-cracking utilities and PDF password attack tools.

Cyber Security Intern | Elevate Labs | 06/2025 - 07/2025
- Conducted network security audits across 50+ hosts and deployed a centralized CTI dashboard integrating VirusTotal and AbuseIPDB for real-time threat monitoring.

Security Analyst (Virtual Simulations) | Forage: AIG, Mastercard, Tata, Deloitte | 12/2024 - 06/2025
- Triaged zero-day CVE responses and executed ransomware bypass simulations (AIG).
- Designed phishing and social engineering campaigns that identified 3 high-risk behavioral patterns (Mastercard).
- Assessed IAM frameworks and enterprise threat landscapes across two simulated corporate environments (Tata, Deloitte).

Cyber Security Intern | Teachnook (IIT Roorkee Cognizance '24) | 11/2024 - 12/2024
- Built Spiderweb, a custom Python OSINT crawler that automates web reconnaissance and structured data extraction across multi-level web graphs.

Cyber Security Intern | Eduversity (Wipro DICE ID) | 10/2024 - 11/2024
- Analyzed 50+ complex real-time threats by monitoring simulated corporate pipelines and generated actionable system insights.
- Earned a formal Letter of Recommendation from the Academic Head for proactive resolution of network security challenges.

Core Team Member, Social Media and Content | AWS Cloud Club, Jain University | 2025 - Present
- Managed social media accounts, technical engagement, video editing, and poster creation for the officially recognized AWS student club.

PROJECTS

- **Sentinel AI:** CTI platform integrating VirusTotal and AbuseIPDB for real-time threat feed enrichment and IP reputation scoring. Repo: github.com/X5464/sentinel-ai | Live demo: sentinel-frontend-rpzi.onrender.com
- **ARGUS OSINT:** Local-first intelligence suite with CLI and GUI consoles integrating 18 OSINT and forensics tools, automated Tor routing, an encrypted key vault, and strict chain-of-custody logging. Repo: github.com/X5464/argus-osint
- **VARS Agri Nova:** Award-winning IoT device (1st place, Research Horizons 2025) combining hardware sensors with the Sarvam API for multilingual crop-health voice alerts to farmers.
- **Spiderweb:** Full-stack web application with production-ready cybersecurity tools. Repo: github.com/X5464/Spiderweb
- **InfoSec Port Scanner:** Custom TCP port scanning utility that maps open entry points and network vulnerabilities; freeCodeCamp certified. Repo: github.com/X5464/InfoSec-Port-Scanner
- **Ad Shield Pro:** Browser extension for ad blocking and tracking prevention that enhances user privacy. Repo: github.com/X5464/Ad-Shield-Pro

EDUCATION

Bachelor of Computer Applications (B.C.A.) in Cybersecurity | Jain (Deemed-to-be) University, Bangalore | 2024 - 2027 | SGPA 9.08/10 (Semester 4)
Minor in Computer Science and Advanced Technologies | IIT Mandi | 2024 - 2025
Class 12, CBSE | HM Education Centre | 2024 | 70.20%

CERTIFICATIONS

Google Cybersecurity | CompTIA Security+ (training course) | Cisco Introduction to Cybersecurity | AWS APAC Solutions Architecture | IIT Madras Python for Beginners | McKinsey Forward Program | IBM Collaborate Effectively | British Council Leadership Skills | freeCodeCamp Port Scanner Project

ACHIEVEMENTS

- 1st Place, Research Horizons 2025, Agricultural Science category (VARS Agri Nova).
- 3rd Place overall among 1,000+ teams, JAIN Launchpad 2025 Glitch Pitch (VARS Agri Nova).
- Completed 60-hour CTF endurance event, Hck4G CTF Con 2025 International (Melbourne, Australia).
